MAU-2021

MEMORANDUM FOR: Director, FBIS

THROUGH : Chief, Operations Group

SUBJECT : Monthly Report -- Austrian Bureau -- July 1982

I. OPERATIONS

A. Monitorial/Editorial

1. Thanks to a variety of speeches, conferences and congresses, June turned out to be particularly busy and hectic. The end result was nearly 700,000 words of publishable copy, the most we have filed since last November and our second highest word count since May 1972.

2. Our senior Romanian monitor, [ ] was "borrowed" STAT for a week by Tel Aviv Bureau in mid-month when she dropped in at the bureau while on home leave and volunteered that she was Hebrew-qualified and willing to help out during the current crisis. Her efforts were later described as a "tremendous help" to Tel Aviv's hard-pressed Hebrew section.

3. With the addition of a new short-wave frequency provided by the BBC, we can again hear Tirana Domestic Service fairly well during the day. Most of our daylight hours newscasts from Albania had become consistently poor to unmonitorable since late last year due to reception problems as well as suspected jamming by Yugoslavia.

4. ELAD again came to our rescue this month, helping out our backlogged Yugoslav section by agreeing to view some 16 Belgrade Videocassettes that we had no chance of getting to because of heavy press responsibilities and scheduled leave. We were also assisted when HQs assumed coverage of the Budapest papers for two weeks during the leave of our sole Hungarian monitor.

B. Lateral Services

1. Acting Chief of Mission Sol Polansky was particularly appreciative early in the month after the bureau provided him with a videorecording of an interview with Assistant Secretary of State Eagleburger which was shown on local TV.

2. The bureau is providing the Embassy's Regional Security Officer with a copy of the new JPRS publication "Worldwide Report on Terrorism." It is our understanding that the RSO is sharing the report with the Austrian Ministry of the Interior.

C. Technical

1. Upon a request from the London Bureau chief who asked for our observations on the effectiveness of the new VCVC configuration, bureau engineer [ ] reviewed the VCVC STAT operation from January through June. The review period covered the inception of the new VC2 line, the system changes permitting manual feeds of any source on either line, and the installation of new VCVC equipment. Although developments have been positive in that the BBC is now taking more feeds live, we still feel there is room for additional reductions in the number of recordings and coordination messages.

2. The bureau received manuals and the first three HP Digital Troubleshooting Course videotapes from FEB/ED this month. [ ] has now prepared a 6-months schedule to be folSTAT ed by the technicians for completing this new training.

3. As the month came to an end, the bureau received one of the new Sony Model VO-5630 videocassette recorders purchased for us by Hong Kong Bureau. Bureau TV monitors can now review tapes much quicker using this VCR's special scanning feature which operates at five times the normal playback speed.

II. ADMINISTRATION

A. Personnel

Throughout the month [ ] interviewed and tested STAT eight prospective candidates for the Electronic Technician position which becomes available after [ ] retires STAT in January. We were quite happy to turn up five promising young men who have been invited back for a second interview and testing in July.

B. Other

The bureau traded in its old copying machine, which only made single copies and used expensive specially coated paper, for the "545" model from 3M which produces cheaper, Xerox-quality multiple copies on either regular or legal size paper.

### III. VISITS
